National Express

Friends ▼

+ Album ▼

We love our drivers spreading the word about life on the road on social media!

However, please be mindful that your online communications must not:

- damage the reputation of our business
- make disparaging or defamatory statements about our business, services, vehicles or drivers
- refer to sensitive business topics or operational performance
- unnecessarily engage directly with our customers

It is important that you make it clear that your views do not represent those of National Express.
